Case of yellow fever in Cincinnati—Refugee.

CINCINNATI, OHIO, *October 27, 1897.*

SIR: I have the honor to report that I am officially informed by the local health officer of a case of yellow fever in this city. The patient, a white man, arrived in this city October 25, coming direct from Montgomery, Ala. He was taken sick upon his arrival, and several physicians made a diagnosis of yellow fever. He was removed at once to the hospital for contagious diseases, and all precautions have been taken to prevent further infection. His condition is considered grave.

Very respectfully, J. W. STEVENSON,
Acting Assistant Surgeon, U. S. M. H. S.

Post epidemic disinfection in Tennessee.

TENNESSEE STATE BOARD OF HEALTH,
Nashville, October 29, 1897.

SIR: Your circular letter of the 11th instant, bearing upon the importance of recording the history of each and every case of yellow fever occurring in Tennessee, is received, and in this connection I will say that the Tennessee State board of health will, as accurately as possible, keep a record of all cases occurring at Memphis or at other points in the State which may hereafter become infected.

Very respectfully, STATE BOARD OF HEALTH,
By J. BERRIEN LINDSLEY, M. D.,
Secretary and Executive Officer.

Active quarantine season in Florida extended to December 1.

EXECUTIVE OFFICE,
STATE BOARD OF HEALTH OF FLORIDA,
Pensacola, Fla., October 19, 1897.

To all concerned:

In view of the continued existence of yellow fever in the Southern States and the prevalence of infectious and contagious epidemic disease in the West Indies, and especially in the island of Cuba, the "active quarantine season," as specified by rule 56 of the rules and regulations of the State board of health of Florida, will not terminate on November 1.

Under the laws of Florida, and by virtue of the said rules and regulations, the State board of health of Florida hereby orders that the said active quarantine season for this year shall extend to December 1, 1897.

The interstate quarantine recently established will remain in full force and effect until otherwise ordered.

JOSEPH Y. PORTER,
State Health Officer of Florida.

Smallpox in the United States as reported to the Supervising Surgeon-General United States Marine-Hospital Service, December 29, 1896, to November 5, 1897.
